- ★ Booster shot 2-3 weeks after first Distemper, when they weigh about 2 lbs 3oz
- ★ 2-3 weeks after booster, Spay/neuter, last Distemper booster and Rabies at All About Animal. **Must be 3 pounds.**
- ★ Ready for adoption

MOM CAT MEDICATION/VACCINATION TIMELINE

- ★ Pryantal and/or Drontal given at intake
- ★ Pyrantal every 2 weeks for a total of 3 doses
- ★ 0.1 ml per pound for mom
- ★ First Distemper when kittens get their first
- ★ 2-3 weeks later, All About Animals. Spay, distemper and Rabies
- ★ Ready for adoption

SCHEDULING

- ★ We try to schedule Distemper vaccinations so the last one can be given at the spay/neuter appointment at All About Animals. We have some wiggle room with the window of time so it could be 2-4 weeks between Distemper Vaccinations
- ★ Kittens must be 3 pounds for spay/neuter and Rabies
- ★ When kittens/cats go to All About Animals, they need to be at Nadi's (14 Mile & M-5) by 6:45 in the morning (sigh) on Tuesday. They are picked up around 8:00 a.m. on Wednesday.
